HOW THE PARTIES LINE UP PREVIOUS TO ADJOURNMENT

East of the Lakes Gave the Government Its Big Majority— Elections for 216 Seats Today

In the Dominion of Canada today elections are being held in 216 seats out of a total of 221. In three of the other seats, Quebec East, two Mountains and Welland, there have already been elections by acclamation, and in the remaining two, Thunder Bay and Yukon, the elections are deferred until October 12.

Of the 216 constituencies electing members today, 84 are in Ontario, the one acclamation in Welland where Y. G. Gurney, Liberal, was unanimously chosen and the deferred election in Thunder Bay, making up the first representation of 86 members.

Quebec, under the act of Confederation, is entitled to 65 members, this year divided into three equal parts, the province forming the basic unit of representation for the Dominion. Of the 65 constituencies, the Conservatives have 36, the Liberals 29, and the Progressives 10.

From Ontario in the last house there were 50 Liberals and Independents, 36 Conservatives, 10 Progressives and 10 Independents. The Conservatives, placing the government in the minority in the premier province by 14 members.

New South, at the time the house adjourned, had 12 representatives on the Liberal side and six on the Conservative side.

SAYS GOVERNMENT SHOULD SHOW COST

COMMISSIONER CANDY BELIEVES PROVINCE SHOULD ASK CITY TO PAY FOR THE COST OF THE BRIDGE

"I think it is up to the provincial government to bear at least fifty per cent of the cost of the east bridge," said Commissioner Candy this morning in the course of a discussion of the work on the new bridge. "They have built Calgary bridges, and there is every reason for their rendering assistance to the city of Edmonton in this case."

Everything is now in readiness for the start of the work on the east bridge to the east end bridge, in a report which was read before the commission board this morning, the engineer stated that his staff had everything in readiness and the work can be proceeded with immediately. The sidewalk on which the road on the east side of the river (across the stream from Edmonton), is to be built, has already been constructed. The road approaches will give a 5 per cent grade.

The cost of constructing the approach to the bridge, on the east side, Engineer Lathrop estimates at \$25,000 maintenance will cost about \$100 a year. "Since the road is outside of the city limits, at least a portion of the cost should be borne by the province," he said.

The commissioners will wait upon the city council at the course, a few days, to present their case in favor of provincial assistance in the carrying out of the undertaking in the east end.

VALUABLE PACKAGE MAKES QUEER EXIT

DUNDEE CONTAINING \$10,000 CURRENCY DISAPPEARS FROM SIOUX FALLS P. O.

(Western Associated Press)

SIOUX FALLS, S. D., Sept. 21.—It became known today that a \$10,000 package of currency mysteriously disappeared from the Sioux Falls post office yesterday and has not been recovered. No arrests have been made in connection with the disappearance of the money.

The package was consigned to the Sioux Falls Savings bank to arrive at the post office yesterday. It was regularly receipted for and placed in the mail. When a messenger from the bank called at the post office for the package it had disappeared.

Three post office inspectors arrived here tonight to investigate the case. Detectives representing the insurance company which had insured the money also are here.

The package was consigned by the North Western National bank of Minneapolis and the Sioux Falls branch \$10,000 was in five dollar bills.

SIR ROBERT HART DEAD IN LONDON

(Canadian Associated Press)

LONDON, Sept. 21.—Sir Robert Hart, director general of customs in China from 1901 to 1908, and governor general since 1909, died here today.

Sir Robert has been living in England since his retirement from the Chinese service because of ill health. He was born in 1825. He was the most distinguished Chinese official in the western world. He created his custom service, he gave China a comprehensive system of customs, and he secured every commercial treaty that China made prior to 1908, when he returned to England.

Soon after his return here he retired from active service. He was secretary to the commission on the subject of the Chinese customs service which met in Canton in 1858. He entered the Chinese customs service as a clerk in 1858, and in 1861 he was being advanced to the post of inspector general of customs in 1883 he was made director of the service. He established Chinese mints at that time made Chinese vessels unsafe to commerce and equipped a large fleet of steamers to hunt the pirates on the coast. He established lighthouses, and later a postal service. In recognition of his memorable services he received the greatest honors in the gift of the Chinese government.

RUSSIAN OFFICIALS ARE IN CONTACT WITH LEADERS OF STOLYPIN

THE DAILY CAPITAL'S ELECTION RETURNS

The elections of Edmonton, who are interested in the outcome of the election, are not far from taking advantage of the special services arranged by the daily Capital. Arrangements have been made with the C.N.T. telegraph company for returns from all parts of the Dominion, outside of the province, while the Capital's special correspondents in all parts of Alberta will forward the results from the different constituencies as soon as they are available.

The returns will be bulletined on a screen in front of the Capital office by means of a stereopticon, complete in every respect. During the day, between the acts, special pictures of interest to all will be thrown on the screen.

Returns from the maritime provinces should start to come in by four o'clock at the outside, and from that time on the results will be pouring in from all parts of the Dominion. In addition to the bulletins, special pictures of interest to all will be thrown on the screen.

Even Members of Famous Third Section of Police Said to Be in League with the Revolutionists—Eighty Persons Under Arrest at Kiev

(Western Associated Press)

St. Petersburg, Sept. 21.—Inquiry into the assassination of Premier Stolypin at Kiev, with particular reference to the revolutionary and police elements involved is being conducted personally by the minister of Justice, M. Chechevitch, and already there are indications of complexity on the part of prominent officials.

Greater sensational than these so far published are pronounced.

Vice-director of the department of police Verigin is under strong suspicion by the authorities, who hold that he is in a measure responsible for the outbreak.

The protection of the Emperor and Empress and Cabinet ministers at Kiev formed a subject of departmental dispute between the police and the attorney-general demanded protective measures but was overruled by the director of the department of police.

While Verigin and Kurlov were at Kiev on the eve of the Emperor's visit, Verigin was consulted and given the responsible position of guarding the premier.

It is incomprehensible to the Emperor's entourage in the inquiry how subordinate, and as Verigin was dared to disregard Kurlov's circular regarding revolutionary spies and allow Verigin, a spy and informer to guard the premier without even telling their agents to watch him.

Verigin was Kurlov's right hand man and maintained close relations with Kurlov's family. Kurlov, against Stolypin's most determined opposition, married the divorced wife of a young adjutant. Stolypin made the matter one of personal confidence to the premier, but Kurlov's influential supporters at court over-ruled the premier. The Nova Novina says that only a mere fraction of those revolutionary's thins can ever be published.

Little reason's forbid the full exposure of the scandalous criminal intrigues in their governmental circles leading to Stolypin's sacrifice, only general reports of the work of secret police, says the Vremya, prevented the escape to abroad.

Many alleged accomplices have been tried in revolutionary cases and given vast number of arrests are being made throughout Russia. A search has been made for the revolutionary responsible of a London newspaper and his brother residing in the outskirts of a Liberal academy, Minsk, Tykova.

Verigin's agents upon receipt of the news of the crime addressed a telegram to Minsk, Stolypin expressing their adherence of their sub-act.

Boroz's brother has been transferred to the fortress.

OLIVER DEFEATED IN ALL CITY POLLS

Reports from the various polling divisions in the city receive up to noon today indicate the commencement of a landslide which will carry the majority of the interior from power to the Liberal executive have abandoned all pretense that Oliver could win the bulk of the vote in the city limits. The outcome hinges upon the district polling divisions, and here also, such a wave of anti-Oliver sentiment as the minister of the interior for had not anticipated, threatens to engulf the Oliver majority of the election of 1908. A victory for the candidate who stands for clean politics is already assured.

Polling division No. 40, which the proclamation stated would be located at a short block three lots west of Kirkness on Alberta, has been changed to the northwest corner of Alberta and N. W. 4th, a distance of three blocks. As to the block near Kirkness there was no notice this morning to indicate the change. Scores of voters were unable to find the polling place. Many of them were vociferous who had little time to spare and their votes cannot be registered. The Conservative voters have now posted a notice on the block, to indicate the change of location.

The Capital this morning secured anti-Oliver divisions in the city.

west end of the vote against Oliver will be particularly strong. Up to noon about one-third of the total vote had been polled. Over 2,000 voters had registered their franchise, while the Oliver vote will predominate in a number of the polling divisions in the east end, in most of the Conservative candidates has the advantage, so far as can be ascertained.

The landslide is reflected in the betting on the rival candidates. Heavy bets are being laid that Oliver will lose in the city by a vote of 500 to 1,000.

One of the important factors in the election is the labor vote. Thirty per cent of this vote, it has been estimated will go to the Socialist candidate. The Socialist is strong in the Italian and German settlements of the city and district and it is an open secret that some hundreds of the foreign born residents of Edmonton whose vote the Oliver party hoped to control, will go to the Socialist.

In the hope of securing a verdict in favor of their candidate by direct means, the Oliver party has not scrupled to employ the most discreditable and underhanded means to influence the location of several of the polling stations has been changed, and information has been given to the voters to call at the Oliver committee rooms.

A polling station in the west end has been changed, and no indication given of the change.

OFFER BIG REWARD FOR BANK ROBBERS

WILL PAY \$27,000 FOR ARREST AND PROSECUTION OF MEN WHO ROBBED VAULT.

(Western Associated Press)

Vancouver, Sept. 21.—The rewards offered by the Bank of Montreal in connection with the recent New Westminster burglary have been increased to \$27,000, which \$5,000 will be paid for any information leading to arrest and conviction of the robbers, in addition to which 10 per cent will be paid on all or any part of the money recovered. This, on the whole amount of the reward, is \$27,000, being the remainder of sum offered.

LONDON, Sept. 21.—This year to date 116,000 Britishers have emigrated to Canada.

CANADIAN NORTHERN EQUIPPING MAIN LINE

Gang of Men Now Stringing Telegraph Wires and Building Water Tanks

West of City

The Canadian Northern railway company is busy now in installing the necessary equipment along the main line of the railway west of the city. A gang of telegraph wire men is engaged in installing a telegraph line west of St. Albert, and the line has been installed as far west as the Sturgeon river bridge. They are continuing to work further west.

Construction work is under way also on the water tanks west of St. Albert. It is estimated that the construction of the telegraph line is completed before the line is laid on a railway but this is being done on the C. N. R. main line.

FISHERIES BOARD TO COMPLETE ITS WORK THIS FALL

Commissioners Will Visit Lac La Biche and Lesser Slave Lake in Few Days Have Investigated Conditions All Through the West This Summer

West of City

The work of the Dominion government fisheries commission will be completed this fall and the commissioner's report of the work of the present summer and the season of 1910 will be laid before the cabinet. The commissioner's report of the work of the present summer and the season of 1910 will be laid before the cabinet. The commissioner's report of the work of the present summer and the season of 1910 will be laid before the cabinet.

AMERICAN TROOPS ORDERED TO COLON. TROUBLE IN PANAMA

Government Anticipates Revolution When Time Comes to Elect President in Southern Republic—Tenth Cavalry to Be Stationed in Canal Zone

(Special to the Capital)

Washington, Sept. 21.—Great significance is attached to the orders issued to the Tenth United States Infantry, to embark for Colon, Panama Canal zone, by persons familiar with political conditions on the isthmus. It was originally planned by the war department to establish a military garrison on the isthmus, about one year before the outbreak of the Spanish-American war, to the effect of the canal to the commerce of the world in 1915. Something must have occurred to cause the war department to change the sudden change in the carefully prepared plans for the military garrison of the canal. Various reports attribute the change to recent developments in the political affairs of the Panama Republic.

Persons prominent in diplomatic circles assert that a crisis in the affairs of the little republic may arise this fall, at the time set for the election of a president, as reports have been circulated for some time to the effect that the present administration intends to change the plan in contemplation for the present chief executive to be a six months' leave of absence. As it is the custom in Panama for the president to

issue a call for the election, this would necessarily prevent the people of Panama from choosing his successor for a time. While there may be no foundation for these reports, the state department has evidently given them sufficient credence to bring about a change in the plans of the war department. In the event of a disturbance on the isthmus, it would be of the highest importance that a detachment of United States troops be stationed at the canal; otherwise a band of insurgents might slip under the cover of the night and blow up the locks, which it has taken years of labor and millions of money to build. This might mean the end of the canal, the revolutionists, with which the isthmus is said to swarm, or discontented political elements, to force intervention on the part of this country in the affairs of Panama.

The state department is understood to be anxious to avoid such complications and, upon its recommendations, the movement of the Tenth Infantry, it is not considered a possibility that there will be any hostilities between the United States troops and any force of Panama revolutionists who may gather to overthrow the present administration.

McGillicuddy's Answer To the Oliver Tirade

Edmonton, Sept. 21, 1911.

To the Editor of the Capital:

Dear Sir,—In the report of last night's speech of Frank Oliver, the man whom I denominated to Premier Currier as a hoodler and a grifter and who did not dare to allow the investigation before the parliamentary committee to continue—did not individual took advantage of the last meeting on the night of the campaign to get me and denounce me as a "black braver and a blackguard." Cowardly, he did not mention my name, but he did mention the name of the man who I denominated to Premier Currier as a hoodler and a grifter and who did not dare to allow the investigation before the parliamentary committee to continue—did not individual took advantage of the last meeting on the night of the campaign to get me and denounce me as a "black braver and a blackguard." Cowardly, he did not mention my name, but he did mention the name of the man who I denominated to Premier Currier as a hoodler and a grifter and who did not dare to allow the investigation before the parliamentary committee to continue—did not individual took advantage of the last meeting on the night of the campaign to get me and denounce me as a "black braver and a blackguard." Cowardly, he did not mention my name, but he did mention the name of the man who I denominated to Premier Currier as a hoodler and a grifter and who did not dare to allow the investigation before the parliamentary committee to continue—did not individual took advantage of the last meeting on the night of the campaign to get me and denounce me as a "black braver and a blackguard." PRINCESS HAS BEEN DIVORCED MANY TIMES

And Is Now Seeking Separation Decree From Her Latest Husband—
Very Wealthy
(Close Cable Service)
Vienna, Sept. 21.—Princess Ida Slesovska, the daughter of a Hungarian millionaire landowner, who has already two divorced husbands living, has made an application to the court of Arad, Hungary, for permission to marry a third time.
The court, which has powers somewhat analogous to the English court of Chancery, at first declined to give its consent on the ground that the princess, however, brought evidence to prove that her future husband can support himself, and the court has now withdrawn its objections to the marriage.

VICTIMS OF MOUNTAIN

Three Bodies Found in Crevasses at Foot of Incline—Were Not Used to Climbing
(Close Cable Service)
Vienna, Sept. 21.—A party of tourists, consisting of two ladies and one gentleman, undertook the ascent of the Great Pyhrass at the end of last week. The ladies, who were young and unmarried, were accompanied by a gymnasium professor named Ludwig Barbeski, of Brunn. The ladies were not provided with suitable garments, nor with the proper implements for climbing.
As the party disappeared last Saturday, great anxiety was felt in the neighborhood, especially as other tourists said they had seen nothing of them. Three expeditions were despatched from Admonk on Saturday, the parents of one of the ladies offering a reward for her recovery. On Monday the three corpses were found on the mountain side.

ATTENTION

We claim that **THE CHEAPEST BUYING** and the most desirable section is **WESTGROVE**, also the lots we offer are **CLOSE TO STONY PLAIN RD.** and are well situated close to **THE SIDEWALK** which extends to City limit and is **WITHIN ONE BLOCK** of the above. It is expected that **THE CAR LINE** extension along Athabasca will come **WITHIN 2 BLOCKS** of this part of **WESTGROVE**.

Compare our prices in this choice residential subdivision with surrounding property, you will find we are over \$200 below anything immediately to the south of Stony Plain Road. Secure your lot now.
PRICES WILL HOLD GOOD THIS WEEK ONLY
Lot 5, Block B \$575
Lots 13 to 19, Block C, each \$575
Lots 21 and 22, Block C, each \$575
Lots 20 and 23, Block C, each \$625
Lots 15 to 17, Block D, each \$400
Lots 8 and 9, Block 2, each \$500
Lots 22 and 23, Block A, for both \$800
Lots 10 and 11 Block A, for both \$900
We can give terms on above to suit purchaser.

GRANT DEMANDS OF STREET CAR MEN

CAUSE MUST BE SHOWN BEFORE
AN EMPLOYEE OF DEPART-
MENT CAN BE DISMISSED.

Street railway employees have won the right for which they have been contending for the past few weeks—the right to investigation of complaints against any member of their union, before that member is discharged. The organization of the railwaymen, and their affiliation with the trades and labor council have borne fruit without labor organization. That the city charter should appear as a stumbling block to the city's recognition of the street railway agreement, and the right of investigation and appeal, was the chief subject of a meeting of the city hall yesterday afternoon, between the commissioners, the city solicitor, a committee of the trades and labor council and their counsel, H. A. Mackie, discussed the legal aspect of any accident which may occur on the street railway, before the man held responsible can be discharged. This more than the accident submitted to the union will be severely modified, and in the modified form will give to the men all that they ever intended to seek.

Should an accident occur on the line, the street railway will be in a very bad position. The circumstances of the affair will be reported to the superintendent. They will then be referred to a committee of the union who will be given an opportunity to present their views, and if responsibility does not rest on the man named, they will report to this effect. Should their report be disregarded, they will have the right of appeal to the city commissioners. The necessity of this clause was pointed out by the men, who claim that in more than one instance they have been responsible for accidents on the line, and fired for their alleged responsibility, when the fault was really the fault of the management. A man was fired because he was unable to bring his car to a stop on a certain occasion when the tracks were wet, and the departmental supply of sand had run out. They claim that the men named, and they claim that it is unjust that a man should be discharged for an accident, unless evidence is shown to the contrary of the rolling stock or track equipment.

In cases where passengers on the street cars complain of anxiety or neglect of duty by motorman or conductors, the union will again have the right to investigation. In the past men have been discharged so it is claimed, without any complaint of any citizen, who may or may not be in the right. By the clause which is to be adopted in the street railway agreement, any complaints of this character will be reported to a committee of the men, and they will be given an opportunity to reply. Having their statement before him, the superintendent will then decide as to the culpability or otherwise of his employee. The board of commissioners may be appealed to if the men are not satisfied that justice has been done.

Men discharged for other causes than the above will be given a reason for their dismissal, except in cases of flagrant breach of duty, when they may be discharged summarily.

ACTION IN SUPREME COURT

The appeal in the case of Armand Marson v. the Grand Trunk Pacific railway is being heard by the judges of the supreme court, sitting on banc today. The appeal was entered by the Grand Trunk Pacific. The defendants in the original action, from a decision of Mr. Justice Heek on a motion to vary a report and directions judgment for the defendants for the sum of \$10,015.20, pursuant to a decision given non the trial held on November 27, 1908. E. B. Edwards appeared for Marson, O. M. Biegar, of Short, Cross, Hager and Cowan, for the G. T. P. The argument is continued this afternoon.

Forbes-Robertson will open his third season in "The Passing of the Third Floor Back" in Brooklyn on October 23. He will continue in this same success throughout the season, appearing in Shubert Theatres in cities where he has not yet been seen.

HUNTERS!!

Nothing more interesting has come out in recent years than the new Hunting Vest. The shells protrude from beneath, so that they may easily be grasped when wanted, even by benumbed fingers; but are held in position so firmly that they cannot drop out. Made like a repeating gun—every time you take a shell out another drops down to take its place.

You simply must have one. Call and see them while they last.

CHICAGO BUSINESS MEN VISITING CITY

CAPITALISTS OF WINDY CITY ARE
ON PLEASURE TOUR OF
CANADIAN WEST.

A party of Chicago business men, among whom is W. E. Phillips, president and general manager of the Chicago and Illinois Western railway, are visiting Edmonton today, having come to the city this morning over the C.N.R. from the city in a private car of the railway with which Mr. Phillips is connected. The other members of the party are H. M. Hamilton, son of the man who was so prominently connected with arrangements for the Chicago world fair of 1893, and G. H. Gushing, president of the Illinois Electric company of Chicago, and Ernest Heath of the Heath and Milligan manufacturing company. All three gentlemen are associated with Mr. Phillips in the railway business.

"We are travelling through the west on a vacation," said Mr. Heath to a Capital reporter this morning. "This is our first visit west of Winnipeg and we are taking advantage of our leisure time to do a little shooting and see the country. From Edmonton we will go to Tulare tomorrow afternoon and will spend a day or two there, and understand ducks are plentiful in that vicinity. We have not quite decided where we will go from there, but we may return to Edmonton and go south on the G.P.N."

Mr. Heath expressed a keen interest in Canadian political affairs, and in the development of the country through which the party have passed. They have made short stops at several places on their way to Edmonton, mainly where they would be assured of good sport in the shooting line. The car in which they are travelling is especially fitted up for a holiday outing with everything that a hunter requires. None of the members of the party were inclined to express an opinion on the reciprocity issue.

There is to be a demonstration of "The Fall in Love With His Wife," to be called "Partners." May Buckley and Frederick Burton are to appear in it.

SEVENTEEN YEARS FOR CRIMINAL ASSAULT

(Close Cable Service)
Burlington Sept. 21.—Sentences of seventeen years' imprisonment and thirty lashes has been passed on a native who was found guilty of a criminal assault on a young English girl who had only recently arrived from England.

A presentation of a gold watch and

chain has been made by the married women of Brixton, Johannesburg, to Mrs. Lumley, the wife of a miner, who was attacked by a native while she was in bed, her husband being absent on a night shift at the mine. Mrs. Lumley asked a revolver and lived twice at her assailant, killing him on the spot.

ELECTION EXCURSIONS

Special election day excursions for the benefit of the man coming home

to vote have been put on on all three railways entering Edmonton. They are offering a rate of a fare and a third for the round trip between all points on the western lines. The tickets are good going September 19th, 20th and 21st, and returning until September 23rd. As yet very little enquiry for the tickets has been received at the city passenger offices.

Charles Klein's new play is called "The Outrider."

EDMONTON NOT ACCOMPLICE TO SHAMELESSNESS OF OLIVER

Frank Oliver closes his campaign with the most vitriolic and disgustingly vulgar attacks of his career, but he fails to answer the question of where did he get it.

The election is all but over now and the ballots will be counted within a few hours, the results of which will show whether or not the city of Edmonton will condone the actions of a man who appears in mysterious possession of immense sums of money obviously the result of the betrayal of his country and is allowed to insult his constituents with the rejoinder that it is none of their business where he got it.

If Frank Oliver is defeated in the city of Edmonton, as he almost certainly will be, it will be a verdict that this city is not an accomplice to the shamelessness of Frank Oliver.

DIRECT LEGISLATION THE ONLY WAY OUT

Now that it is all over and the country has an opportunity to again settle down to its ordinary, common-sense, work-a-day business, the outstanding feature about it all is the unnecessary amount of disturbance which has been created over this reciprocity business, a disturbance which could have been entirely avoided by submitting the question to a referendum.

Had the Dominion of Canada in vogue the referendum system as they have it in Oregon and Switzerland and some other countries it would have been quite possible for the electors of the Dominion to have walked to the polls any morning and recorded their votes for or against reciprocity without any greater disturbance in each community than is created by the submission of a money by-law, and without the interjection of party or personal politics into the question at all.

It is this fact, of course, that momentous questions can be settled without the interjection of politics, that makes direct legislation unpopular with the professional politician.

With representative legislation the politicians have simply to seize upon a popular issue, fasten themselves to the issue and make it impossible to endorse the issue without placing them in control of the country's affairs.

But with direct legislation the electors can settle the question of policy without having to endorse any man or set of men or party by simply voting pro or con on the question before them.

So that when Sir Wilfrid Laurier decides that a reduction of the tariff will meet with popular favor and decides to go to the country thereon, and Mr. R. L. Borden, under the impression that the country can be made to believe that a reduction of the tariff is not the best interest of Canada, accepts the challenge and stakes his political chances on the verdict, they both go before the electors laying more stress on the fact that they are the men who are for and against the issue than they lay on the issue itself, leaving the electors no choice but to accept or reject either Laurier or Borden in order to put into effect the popular sentiment.

Had both men been working as disinterestedly for the general good of Canada as their professions testify they could have placed on the statute books a referendum law which would have eliminated the whole question of personal politics, would have avoided the deadlock in the parliament, would have obviated the necessity of a general election and would have saved the country millions of dollars in time and money, settling at the same time, without the interjection of side issues and without the slightest possibility of confusion, the main question of whether or not Canada as a whole is in favor of tariff reduction.

Direct legislation is a long step in advance of the system in vogue in this Dominion today, but it is the rational solution and it must come, sooner or later.

If the country is to be spared the never-ending confusion and turmoil of constantly-recurring elections, if it is to be relieved from the corrosive influence of special privilege, if it is to be relieved of the brutalizing and corrupting forces of the campaign barrel, there is only one way out, and that way is plain. Direct legislation.

AMALGAMATION AND MUNICIPAL GAS

While the Dominion election has been absorbing the attention of the citizen on both sides of the river the important questions of amalgamation and the gas franchise have been almost wholly lost sight of.

Only a few days are left for the discussion of these questions and while both cities have had a surfeit of public meetings it is still incumbent on the authorities that be to call a few more meetings in order that these issues be placed before the ratepayers.

Scarcely anyone who has studied the questions will vote against either amalgamation or municipal gas, but there are still quite a large number of ratepayers who have been so wrapped up in Dominion politics as to have given neither question study, and for the benefit of these it is essential that both should be fully explained before voting day, which is September 26.

JUST PARAGRAPHS

"Blackmailers, blacklegs and blackguards," the song of Frank Oliver, which will go echoing down the corridors of Frank Oliver, which will go echoing down the corridors of time until its last discordant note settles in the catacombs along with the dead ones.

A vote for reciprocity is a vote for prosperity, "is the way the Bulletin puts it. But reciprocity is safe enough with Oliver at home, as the returns tonight will show.

The Disillusionment of the Old-Fashioned Girl; How She Became a New Woman.

When Sent Out Into the World to Earn Her Own Living the Old-Fashioned Girl Became a Stenographer

By Ella Wheeler Wilcox.

This was the story as it was told to me. There was a sweet old-fashioned girl, who held high ideals of men. Whatever was masculine, was great and wonderful to her.

She believed men to be the creators in all realms of achievement; the leaders in the world of thought; the lovers of progress; and she worshipped them as Arch-angels, a little less than the One God. When there arose any discussion of woman's equality, she was disgusted with all who suggested woman as man's equal in any way.

To her it was a delight to find that she was inferior to men in the field of happiness; in the vocation of a devotee, at the shrine of masculinity. She knew there were men there who were good and the bad; and she felt very sorry for the bad men; believing it was the fault of their mothers that they had gone wrong.

One day it became necessary for this old-fashioned girl to find a self-supporting position.

A friend of the family secured employment for her. She was sent where half a hundred men prominent in the world of finance, transacted great affairs.

Old-fashioned Girl as a Stenographer. There were heads of great corporations, and all their staffs of men, and every day, going up and down in the elevator, the old-fashioned girl was blessed, and blessed by the sight of these representative men.

Her employer was one of them, and often other men came in to talk with him or to transact business. In one part of the building where the old-fashioned girl worked, there was a banquet room, where these men sometimes lunched or dined.

As the weeks went by, the old-fashioned girl learned many things about the habits of these representative men. She learned that they were men, feeling a sense of great responsibility. She knew they handled hundreds of thousands of dollars of other people's money.

She knew they were fathers of the progress of the city in which they lived. She believed they would regard such obligations as sacred. One day her employer was asked to meet several other men at the banquet room at lunch time to talk over what was termed "his deal."

The old-fashioned girl was a stenographer and she knew much about the progress of the city in which they lived. She believed they would regard such obligations as sacred. One day her employer was asked to meet several other men at the banquet room at lunch time to talk over what was termed "his deal."

TEACHING CHILDREN TO LIE

By Marie Corbope.

On a crowded excursion train yesterday I saw a tragedy of child life that wrung my heart, and an exhibition of meanness on the part of a father that for the first time in my life made me wish that I had the power to punish.

This man was guilty not only of wicked cruelty, but an attempt at subornation of perjury, which my learned legal friends tell me is a serious crime in the eyes of the law.

The train I speak of, as usual, already crowded to the point of extreme discomfort, had stopped at a station and again the seemingly impossible happened. The incoming train from the station platform jammed more persons into the car. A family group caught my eye. It was a father, a mother with an infant in her arms, and a little girl who was probably eight or nine years old. They were on their way to the beach for a day's outing.

A young man who had been clinging steadily to his seat since the start of the journey, with a child in his arms and a woman's hand wrapped in his, stepped over the side of the car and into the arms of the father.

It was the fourth member of the group—a little girl, no more than ten years of age, who had been sitting in the car. She was a true soldier, although the big, strong father was wholly unimpaired. But when dark eyes stared and anticipated pleasure of the wonderful outburst, perhaps the gladiatorial day of all the year.

The tiny creature, despite the motion of the train, held tightly to the father's hand. It might have contained all the wealth of a Solomon from the way she jealously guarded it, and she even managed to smile as she was lifted about in the forest of her father's arms in the car aisle. Her poor arms could not reach half way to the dining car, and she was not even permitted to pay the least attention to her.

Then came the conductor. He was perceiving that the father was demanding for tickets the father handed him the slips of parchment.

"Who pays for this girl?" the conductor asked.

The tiny creature, despite the motion of the train, held tightly to the father's hand. It might have contained all the wealth of a Solomon from the way she jealously guarded it, and she even managed to smile as she was lifted about in the forest of her father's arms in the car aisle. Her poor arms could not reach half way to the dining car, and she was not even permitted to pay the least attention to her.

WINNING SUCCESS

THE DAVID MAN AND THE STARS

By Thomas Tapper

WINNING—EDIT PAGE

Truth is stranger than fiction. No man can imagine anything so wonderful as that which really happens.

Such is the case of William Herschel. The story of his success owed to brace up anyone, no matter how crude his work is, or how little he knows.

William was born in Hanover, Germany, in 1738. He was a long time ago, so it makes no difference, for success is won now just as it always has been. The father played the harp and the mother was a spinster.

But young Herschel had a desire to learn, and he put in all his spare time studying music and mathematics. His rule was to do everything thoroughly so he learned these two subjects well.

One day he was playing the harp and played as his father did for a living. After a time the hand visited again, and this time he began to determine to settle there, which he did when he was nineteen.

He first taught music and played the organ, and he earned a very poor living but later he moved to Bath, in the west of England, where he was able to devote himself more to his study.

But all the while he kept on studying and dreaming about other things. He was a very poor man, but he was a very good man.

He had made up his mind to become an astronomer, but he was a very poor man, and he was a very good man.

He had made up his mind to become an astronomer, but he was a very poor man, and he was a very good man.

He had made up his mind to become an astronomer, but he was a very poor man, and he was a very good man.

MRS. PLUNKETT

She Discusses Mothers-in-Law

By Dorothy Dix

MRS. PLUNKETT

She Discusses Mothers-in-Law

By Dorothy Dix

Mrs. Lyssander John Appleton had risen to get after making a five-minute call on a friend.

"I just came," she said, "You know I'm on my way to address an open-air meeting of suffragettes, and am due there at two, and it is now half past. I intend to advocate to the sisterhood that instead of storming the legislators with argument they attack them with tears."

"There isn't anything a woman can't get out of a man if she cries convincingly. I know it, and I have reduced the fiercest argument to a mathematical basis."

"I smell something burning, and really won't detain you any longer. I smell like cake which reminds me that I made a cake last week, and I thought I'd come home and eat it. I stayed so long I couldn't excuse myself to take it home. Some callers are so thoughtless that way."

She had reached the hall when trouble with a glove button reminded her she made a new pair.

"A woman's brain," she said, "is a regular storehouse of ideas. She has to remember the size of her gloves, the color of her shoes, her corset, her collar, her belt; how much she weighs now, and what she weighed the six times previous, and the date of the birthday of every friend she has, and some women burden their brains with the size of their husbands' neckties."

Your cake is burning badly by the odor, but if you scrape off the burnt part and cover it with icing it won't show."

She had reached the hall door when an allusion to girls reminded her of Mary Magdalene.

"Yes, she's a crown woman now," she said with a sigh. "There's a piece of folly about a girl standing up and lecturing on a subject like this. It's a waste of time and money. She's a crown woman now, and she's a crown woman now."

"Yes, she's a crown woman now," she said with a sigh. "There's a piece of folly about a girl standing up and lecturing on a subject like this. It's a waste of time and money. She's a crown woman now, and she's a crown woman now."

EDMONTON

General Facts for Those Paying the Capital City a Visit

Street railway 23 miles, cost \$980,500.

Water mains 54½ miles, together with plant cost \$903,791. Water supply limited only by capacity of Saskatchewan river. Light and power plant, 4700 kw., cost \$402,000.

Edmonton is situated on three transcontinental railways, has 12 railroad outlets and 9 proposed outlets. American roads coming from south.

Individual and undisputed territory greatest of any city on American continent—800 miles west of Winnipeg, 650 miles east of Vancouver.

Coal, ore, oil, natural gas, minerals in close proximity.

Low rate taxation 13.7 mills; \$500,000 new wealth realized by tributary area this year.

Over a hundred wholesale and commission houses in the city.

Fourteen banks and three loan companies.

Municipally owned industrial sites for lease with option of purchase.

BUILDING GROWTH
1909, \$2,123,166; 1910, \$2,159,106; 1911 (for seven months), \$2,050,000. Entire year estimated, \$4,000,000.

POPULATION
1905, 9,200; 1906, 14,000; 1907, 18,000; 1908, 20,000; 1909, 23,000; 1910, 25,000; 1911, 28,000.

ASSESSMENTS
1910, \$4,434,400; 1911, \$3,105,110; 1909, \$2,584,700; 1908, \$2,235,700; 1907, \$2,195,700; 1906, \$1,704,198; 1905, \$662,000. 1904, \$548,1903, \$3,208,1902, \$1,724,1911, 28,000.

FORECAST
At the present rate of development and growth Edmonton will have a population of 100,000 in 1915 and an assessed valuation of \$130,000,000. Its street railway mileage will be 90 miles; paved streets and boulevards, 70 miles; 200 miles of sewers; 250 miles of water mains. Edmonton is growing faster than it can be polished, it is young and rough, but three years will witness a most remarkable development.

Establish yourself in Edmonton now, get busy, grow with the city and make your fortune.

GEOGRAPHICAL MEN TO COME TOGETHER

NEW YORK TO WITNESS JUBILEE
OF AMERICAN GEOGRAPHICAL
SOCIETY.

(Globe Cable Service)
London, Aug. 26.—There is every reason to hope that next year New York will be the scene of the jubilee of a grand array of explorers, geographers, cartographers, sportsmen, travellers, and students of geography for the purpose of celebrating the jubilee of the American Geographical Society. The Americans have set to work to make the occasion a notable success, and in order to do this a transatlantic excursion for the purpose of geographical study has been planned, under the leadership of Professor W. M. Davis, Professor of Geology at Harvard University.

The date when this interesting geographical excursion will take place or end has not yet been decided, but it is practically certain that the party will leave New York in the month of August and will return in October. According to information received by the Royal Geographical Society here, a special train will be requisitioned for the party and provided with all the comforts necessary to relieve the monotony of such a long overland journey.

The outward route is at present planned so as to include among many other points of interest to students of geography the highlands and shores of the Hudson, Niagara, the shore lines of the lakes in Ohio, the southern end of Lake Michigan and its artificial outlet into the Mississippi and Missouri, the Yellowstone Geyser and National Park, the Rockies of Southern Montana, the Cascade Range, Seattle, and Puget Sound. The return will probably be made by a more southerly route, through Idaho, Nevada, Utah, New Mexico, and Arizona, and will perhaps also include a visit to San Francisco. The extension of the journey southwards will thus present to the travellers an opportunity of examining many points of interest connected with the Columbia, Snake, Arkansas and Colorado Rivers, the Wasatch and other ranges, the ancient shore lines of Lake Bonneville, and the various plans and deserts of the States to be traversed. From Kansas City the route will be via St. Louis, Nashville, Chattanooga and the Blue Ridge to Washington.

The Drag on the Pay Envelope

The price of your clothes comes out of the "Pay Envelope." We are all "Pay Envelope" men, whether we are in business or working at "so much" the day—our income is just a certain amount and we must keep within it.

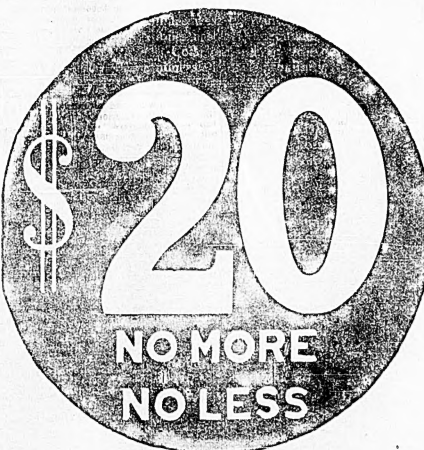

THE SCOTLAND WOOLEN MILLS makes the drag on the "Pay Envelope" easy. Twenty Dollars for a Made-to-Order Suit or Overcoat from the very best imported materials.

MADE-TO-ORDER SUIT or OVERCOAT

The Very Fact
That We Are
Offering

You a Made-to-Order Suit for twenty dollars should tempt you to at least enquire about our offer. In looking through the stock remember that the goods are positively all from the mills in Scotland, and are thoroughly tested before leaving for our Canadian Branches. The goods we put into our garments are but rarely found in a thirty-five dollar suit.

A few days ago we received another large consignment of new goods. It will pay you to a little out of your way to look this stock over.

We Are
Cosmopolitan
In Our Clothes

If you desire an American fashion we can satisfy you, or if you prefer an English cut it would be an easy matter for us to supply you, because we have in our employ artists in both schools of cutting. The suitings we sell are so fine that they help materially in making a good suit. They mould easily into soft lines to the contour of the body, and being wool, hold their shape in extreme weather.

A NEW CABLE NOW ACROSS STRAITS

SPEECH BETWEEN ENGLAND AND
FRANCE IS GREATLY AUGMENTED
BY NEW SERVICE.

(Globe Cable Service)
London, Sept. 21.—A short time ago the British general post office laid a new and improved telephone cable in the Straits of Dover, and this has recently been connected to land lines from London and Paris, thereby providing increased and improved telephone facilities between the two capitals. By the extension of these circuits to provincial towns speech is rendered possible between places in England and France which could not previously communicate with each other, and, in order to determine the extent of the increased range, experiments have recently been carried out by English and French officials from a number of provincial towns on this side of the Channel. Before the new cable was provided, no town north of a line connecting the Humber and the Mersey could communicate with Paris, but in the recent trials it was found possible to converse with the French capital from Newcastle-on-Tyne, Glasgow, and Edinburgh, and finally trials were made from Aberdeen involving a circuit length of over 900 miles. In the best conditions of line and apparatus commercial speech could be conducted from that place with Paris. These tests will enable the post office engineers to determine what other English towns can communicate with France, and it is hoped that a list of such towns will be published shortly.

AN INCREASE IN MINE FATALITIES

SIXTY PERCENT MINE ACCIDENTS
THAN DURING PREVIOUS
YEAR IS SHOWN.

(Globe Cable Service)
The most striking feature of the report of Mr. R. A. S. Deans, Chief Inspector of Mines, is the remarkable increase in the number of fatal accidents recorded in the year. It is stated that there were 1,242 fatal accidents in coal mines, causing 1,755 deaths. Compared with 1909 there is an increase of 60 in the number of accidents and 322 in the number of deaths. Of the 1,755 persons killed, 141 were under sixteen years of age, as against 95 in the preceding year. The death rate of the underground workers at the coal mines was 1.23 per 1,000 persons employed, as against 1.61 in 1909; the death rate of the surface workers was 0.70, per 1,000 employed, as against 0.67 in the previous year.

The total number of deaths from accidents at mines under the Coal Mines Regulation Acts in the highest yet recorded in any one year, viz., 1,755. The number of deaths from explosions has been only twice exceeded, viz., in the years 1866 (651 deaths) and 1878 (586 deaths). The number of deaths from mine accidents is the highest recorded, viz., 636.

The total number of persons employed in and about all the mines of the United Kingdom was 1,079,823, of whom 1,049,107 worked at the 3,253

mines under the Coal Mines Act, and 28,726 at the 623 mines under the Metalliferous Mines Act. Compared with 1909 there is an increase of 35,109 persons at the mines under the Metalliferous Mines Act. Of the 1,049,107 persons working at the mines under the Coal Mines Act, 818,281 or 78.0 per cent, were employed below ground. Of the 291,026 surface workers, 6,224, or 2.09 per cent, were females. There is an excess of 578 females as compared with 1909. The

number of young persons under sixteen employed below ground in these mines was 53,612 or 2.3 per cent, of the underground workers, the total number of surface and underground workers under sixteen was 72,094 or 6.87 per cent of all workers.

LONG HAT PINS ARE TABOO IN BERLIN

LADIES WHO WEAR THEM ARE LIABLE TO A FINE OF \$25, AS WELL AS JAIL SENTENCE.

(International News Service)
Berlin, Sept. 21.—Some time ago the Berlin police president, Herr von Jazow, issued a courteous appeal to the fair inhabitants of the city requesting them not to wear dangerously long halpins in their head dress without covering the points with protecting sheaths.

The appeal was the result of several serious accidents resulting from women wearing long halpins in crowded tramway cars, railway carriages and

Frank Duffy president of the United Brotherhood of Carpenters of America, who has been visiting Edmonton since Sunday, leaves tonight for Saskatoon, where he will address a meeting of carpenters tomorrow. He will address meetings in Prince Albert, Regina and Winnipeg before returning to his home in Indianapolis.

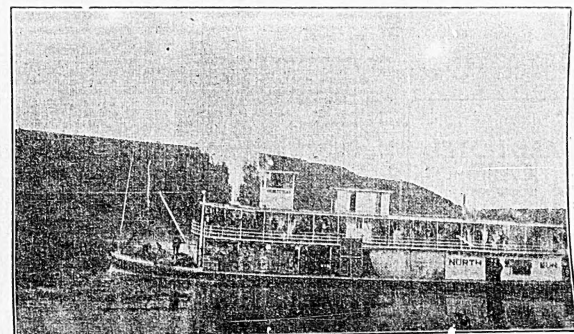

Katherine Emmett will be leading lady with Lawrence D'Orsay in his revival of "The Earl of Pawtucket."

ENGLISHMEN DETAINED CHARGED WITH ESPIONAGE

Embden, Prussia, Sept. 21.—Two Englishmen, son to be officers of the British army, are detained here be-

cause of suspicion that they have been guilty of espionage. The men were arrested yesterday and released after examination. They were again taken into custody today upon orders from Berlin.

George Parsons, the husband of Georgia Drew Mumford, has written a musical comedy which has been accepted by the Shuberts for production early this season.

BASKETBALL LEAGUE WAS ORGNIZED LAST NIGHT

ABE ATTELL ALLOWED TOO MUCH WEIGHT AND LOST TO ENGLISH PUGILIST

Officers Were Elected for Season—Six Teams Entered in League—Teams Must Put Up Forfeit to Finish Season—Schedule Opens Next Wednesday

The organization meeting of the Y. M. C. A. Basketball League was held last night at the Y. M. C. A. building and resulted in the formation of six teams entered in the league four representatives of each.

The first game of the season was played last night between the Y. M. C. A. and the Y. M. C. A. The game was a close contest and the Y. M. C. A. won by a score of 15 to 14.

The Y. M. C. A. team is composed of the following players: H. J. Gaudin; President—T. S. Yarnall; Treasurer—J. H. Gaudin; Secretary—J. H. Gaudin; Executive—G. H. Gaudin; Max P. G. A. Borne.

BRESNAHAN SIGNS FIVE-YEAR CONTRACT WITH CARDINALS

Roger P. Bresnahan Will Receive \$10,000 for Five Years to Lead the Cardinals Towards the Pennant—Possibilities Have Been Discussed

St. Louis, Sept. 21.—Roger P. Bresnahan yesterday afternoon signed a five-year contract to manage and play with the Cardinals. The salary was not named. Mrs. H. C. Mayner Brillon, owner of the club, came from Cleveland to line up Bresnahan.

It is generally understood, however, that Manager Bresnahan's contract calls for more than \$10,000 annually. His previous salary was \$2,000 for three years.

WHO WILL MANAGE WASHINGTON TEAM WITH NEW OFFICER

Washington, Sept. 21.—With nearly all the baseball clubs accepting the report that McAlister is to become a permanent fixture at Washington as a regular stockholder and officer of the club, the experts have already commenced to figure on the probable manager of the team for next year.

Thus far, but two names have been presented, George McElroy and Norman McElroy. When McElroy, appointed McElroy, left captain of the Nationals he praised that player without qualification, and it is not surprising that he is one of the closest men to the club who is now directing the fortunes of the organization.

McElroy, on the other hand, while having no official capacity, has played a most prominent part in the direction of the team. At Atlanta he gave valuable instructions to the corps of recruits and has consulted more than once since the regular season commenced. When McElroy was, without warning, thrown in charge of the New York Highlanders a couple of years ago, he was not particularly impressive as a manager, but since then he has changed his tactics entirely, as is recognized as one of the ablest tacticians in the league.

McAlister is having little to say about his future relations with the ball club and has not discussed the matter of management with the newspaper men, but should be succeeded in his present plan of obtaining a large stock of shares, the feeling is that he will choose his playing representative from among the players now on the benches, with McElroy and McElroy as the favorites.

As far as can be learned no immediate developments, in the way of the deal for the purchase of stock by McAlister. He was in consultation with Ten Johnson in Chicago when the idea was that all the future negotiations will be conducted through the head of the league, who, after all, is the most important personage when the matter of stock transfer comes up. Should McAlister buy and decide to appoint a manager from the team that is now playing under his direction it is likely that either McElroy or McElroy would be satisfactory to capital fans as they are both popular and are acknowledged to be thoroughly capable men.

AVIATOR KILLED.
Ogdensburg, N. Y., Sept. 19.—Eugene Godel, an aviator, was obliged to crash from a height of sixty feet and severely injured tonight. Both his legs were twisted badly, and his head, a shoulder broken, and his back painfully smashed. The accident was due to the motor stopping. The plane was violently demolished.

The YALE HOTEL CAFE

IS NOW OPEN

MR. ROBERT McDONALD is now prepared to serve the citizens of Edmonton with the best, obtainable food. Cooked by a first-class chef and on the European plan.

Meals served at the cafe, from 11 a.m. to 12 p.m.

CURLERS AND EARL GREY

Montreal, Sept. 21.—Members of the Royal Canadian Curling Club of this city went to Ottawa yesterday to present Earl Grey, on the eve of his retirement from the Governor-Generalship, with a memento of his stay in Canada, which at the same time will be a token of their appreciation for the interest he has manifested in their favorite sport.

The souvenir is an inkstand in the shape of a small curling stone, cut out of Canadian granite, and ornamented with silver.

HIGH SCHOOL TEAM REORGANIZES FOR THE FALL SEASON

The organization meeting of the High School football club was held in the school yesterday afternoon. Officers for the year were elected. It was decided that the team would be sent to Red Deer some time before the end of the month.

The school has already made two trips after the football team to Red Deer. The team is stronger this time than ever before and is going to make an especially hard effort to pull it down.

The officers for the year are: Captain—Jack Greer; Manager—Fred Prater; Executive—George Parney, G. D. Bradley, P. Greer.

MURPHY MAY HAVE THE CUBS TRAIN IN FLORIDA IN 1912

Chicago, Sept. 21.—Saratoga, Fla., will be the training camp of the Cubs in 1912, if President Murphy finds the location satisfactory after a preliminary visit in the near future. Several of Murphy's friends have written to him, advising the benefits of the spring season, so he has decided to make a trip southward in a week or two.

Murphy has already made arrangements for seven exhibition games to be played during the spring training trip. The first game will be at Memphis, where the Cubs stop for two days, March 22 and 23. Four days will be passed at Louisville, being March 28, 29, 30 and 31. The other date is April 5 at Indianapolis. Murphy has already made his own plans to visit the Cubs in the spring. He is also working on the 1912 schedule, but will wait until New Orleans next year, following plans made last spring.

CHURCH MAY BE A FIGHT AREAS

New York, Sept. 21.—Property owners in the vicinity of Bushwick and Bklyn avenues, and Broadway, Brooklyn, are being urged to contribute to the church. The church is being urged to contribute to the church. The church is being urged to contribute to the church.

Chances are right there with a defense of Griff. And he is also there with the charge that the managing director of McElroy will be one of the most potent factors if the Cubs lack the Giants in 1912. Let's suppose this Cincinnati race first," said Chance. "Here is a fellow who is running the worst of it. The Cincinnati team was a strong one but there was one thing which the paper editors failed to mention. And that was the fact that the pitchers would refuse to perform as well as the dogs showed they should."

"Griffith didn't get any pitching until last month. The moment he got anything resembling good pitching, he had a ball club. One that could play real baseball and give anybody in the league a fight."

"Had Griffith had the pitching last year that he is now receiving he would have been in the race. He would have been a hero in Cincinnati and you wouldn't have heard a word about a successful season being so near."

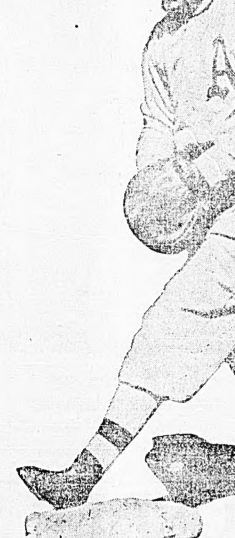

"In the case of 'Griff' the difference between this hero and the other of everything else is that he had the pitchers. If they pitched Griff was the hero. They didn't and Griff was attacked. Griff himself, the man personally, had no more to do with determining whether his reputation should survive or not."

"Now that's the case of Griffith. The Cincinnati hero was struck when McElroy showed that he had the balls he would win the pennant. I want to say that if Griff had the Giants that he would be so far in the lead that the race would be over."

"Take a glance at the New York ball club. For the first time in its history it was by far the best club in the league. Marquand is a wonderful pitcher this year. McElroy is a great ball player. He has the material in the remainder of the staff to get good pitching all the time. The Giants had the hitters and he had the batters. He had the batters and he had everything that should have given him a pennant in a run-away race."

"Right now the Cubs have as good a chance as Springfield and Bridgeport. The reason this is true is because McElroy has got out of his team what he could have. When McElroy says that with the Reds he could have won the pennant it's a shame that he would have made a joke of the race and

"For I am as truly convinced as I am that with the New York outfit Griff would have made a joke of the race and

A new action photograph of Harry Davis, field captain of the Philadelphia Athletics, who has been displaced as first baseman by the rising young man, a slug, believed to be either St. Louis, Cleveland or Washington.

Sporting Comment

What money and management can do is well exemplified by the success of the Toronto Lacrosse team and the progress of the Toronto baseball club. The one is to all intents and purposes planted on top and the other is so near the pinnacle that the club actually at the crown has nothing to grow about. Had the management of the Toronto baseball club the acquisition as would have given the Toronto a narrow victory and then arranged for home and home matches. That is what hippopotamists would have done and they would have been accounted wise and clever in their generation. It would have meant ten thousand dollars or thereabouts to the club's coffers, but the Toronto is not a club that is not managed that way and it is pleasant to think that there is at least one professional organization with some spirit of sportsmanship about it. It is not meant in saying this that there are no modern creations, for in ancient days—those good old times we read about—hippopotamists and professional sportsmen were sure and certain bed-fellows.

While the succession of a recently good old times we read about—hippopotamists and professional sportsmen were sure and certain bed-fellows. The honest horse race run and never was a honest baseball match played was the height of extravagance in assertion, no one can deny that in days gone by tricks that would be graded to the wall were accounted legitimate and even commendable by ninety-nine out of a hundred professional gamblers or athletes. It is cheering an encouragement to think that such is not the case now and that business men have brought about an innovation and reform in the game. Little can be said for the Toronto club, but they will prove a sterner proposition than any they have yet tackled. Lacrosse may not have flourished in British Columbia, but it has a sturdy growth in British Columbia, and if the Toronto club can lead the Vancouverites, they will have abundant right to emulate a whole harem of chancellors.

About this time Fred Parney will be getting nicely supplied up on the fast track down at Montreal for the sprints on Saturday. This will be the last day that he will be allowed on the track there for on the day immediately previous to the race, Fred has duplicated the stiffness which he has after his long trip from Edmonton and should be in shape for Saturday.

The Calgary papers are getting into a bad stew because the Edmonton team are not willing to go into a big four league without due consideration. The more they talk the more rabid their statements become. They are getting drunk with the exuberance of their own verbosity.

THE SPORTS SOLILOQUY.

STANDARD OIL IS HAVING TROUBLE

METHOD OF SELLING TO RETAILERS HAS HIT SCOTCHISH DISTRIBUTING FIRMS.

(Special to The Capital.) Glasgow, Sept. 21.—Further developments in the oil trade threaten to make Scotland the scene of a keen struggle. The Standard Oil Co. has been developing with marked success its direct trade with retailers by means of road tank wagons. This has hit the Scotch oil companies and other importing concerns hard, with the result that the Homestead Oil Co. and the British Petroleum Co., both representatives of the great combination of European producers, which is at present engaged in a world wide struggle with the Standard Oil Co. are perfecting plans for covering Glasgow, Edinburgh, and surrounding districts with a distinctive organization similar to that of their opponents.

NORWEGIAN SOLDIERS THREATEN TO MUTINY

Claim That Troops are Unjustly Punished and Demand Their Release Which is Granted.

(Special to The Capital.) Stockholm, Sept. 21.—Almost every day serious tumults are reported among the Norwegian soldiers at different drill grounds in Norway. A few days ago several soldiers prevented a change of guards at Osterdalen, and made a demonstration against a sergeant and later there were demonstrations at the Stenker drill-ground, where 25,000 soldiers are drilled. They considered that two soldiers were too severely punished, and some of the young soldiers party prepared a flag with the following inscription: "In the name of Justice, we demand the liberation of the prisoners." About 500 soldiers gathered round this banner and stormed the cells. The sergeants faced bayonets, but the mutineers finally succeeded in liberating the prisoners by force.

HOW PARTIES LINED UP PREVIOUS TO

(Continued from page one)

valve side of the house. New Brunswick elected 11 Liberals against 2 Conservatives and Prince Edward Island elected three Liberals to one Conservative.

Taking the aggregate of the provinces to the east of the Great Lakes the government had, at the time the election adjourned, a majority of 41 seats. The Liberals having a representative of 115 while the Conservatives were able to muster but 71.

West of the lakes, Manitoba sent only one Liberal to the Dominion house, against nine Conservatives. Saskatchewan was exactly reversed this time, sending nine Liberals to one Conservative, thereby making the two prairie provinces break exactly even. British Columbia gave the Liberals two seats against five for the Conservatives, and Alberta gave the Liberals four seats out of seven, while the one seat in the Yukon went to the Liberals, making seats for the Liberals in the western provinces and eight for the Conservatives.

The aggregate representation west of the lakes therefore cast the government of its majority gained in the east. The Liberals from West of the lakes sending 17 members and the Conservatives west of the lakes sending 15. The Liberal government's total majority in the Dominion house at Ottawa at the time of adjournment 13.

It is generally conceded by both parties there will be no startling changes in the representation of the west as a result of the voting today. It is also generally conceded that the Maritime provinces will show little change in the proportions of their representation.

It is to the province of Ontario that the Conservatives look for their gains, and the Liberals throughout the country have not very explicitly doubt the probability that there will be Conservative gains in that province.

It is from the province of Quebec, however, that those who predict a surprise predict that the surprise will come, and the area in which a change is predicted is the very small area including and immediately surrounding the city of Montreal, from which, so less than 30 members are elected. This is the territory in which Bourassa and the Conservatives are working, and it is seen just how strong they are it is impossible to even predict what will be the result of the election.

Should the Conservatives realize the claims which they have been making, that they will gain 10 seats in Ontario, a change of 10 seats in the province of Quebec would almost certainly defeat the government. There are seats enough in the territory which Bourassa is covering to accomplish this result, although to do so the Bourassa-Conservative alliance would have to show greater strength than they have ever done before.

In watching the returns tonight, therefore, keep your eye on Quebec, and upon that particular south-west corner, which is the pivot point in this campaign.

WANTS CHAMPIONSHIP BOUT

(Western Associated Press) New York, Sept. 21.—James Coffey, San Francisco telegraphed to George McDonald, a man at Mt. Wills, English lightweight champion of the world, \$25,000 for a fight with Paddy MacFarland, \$75,000 for a contest with Al Wozens. Fight to take place in California.

TAX NOTICES ARE BEING ISSUED

WILL SHOW THAT RATEPAYERS ARE INDEBTED TO CITY IN SUM OF \$700,000.

Tax notices representing a total of between \$600,000 and \$700,000 due to the city treasury will be sent out by the city treasurer within the next three weeks to all ratepayers. The first street will receive their notices on October 1. They will be sent out at three week intervals from September 30, and a week later every one of the tax notices for that portion of the city lying west of First street will have been sent out.

There will be an increase in the neighborhood of forty percent, in the tax revenue of the city for 1911 as compared with 1910. Last year the total fell just short of \$500,000.

MILLS-RUTHERFORD WEDDING.

(Special to The Capital)

Paris, Sept. 21.—In the private chapel of Mrs. William K. Vanderbilt at Danville, in one of the most picturesque spots to be found in the country, a most charming ceremony, the wedding of Mrs. Vanderbilt by a previous marriage, was wedded yesterday to Mr. Ogden Livingston Mills, Jr.

Mrs. Jeanette Mills was to the knowledge of the defendant in a dangerous condition and improperly protected at the time of the accident. He claimed the sum of \$25,000 for medical attendance, hospital fees at the rate of \$5.25 per week, with \$2,000 general damages. The defense averred that their workman was not acting under orders when the accident occurred, and that it was not due to their fault or carelessness.

ALBERTA ADVERTISED IN FRAP-DEE HONOLULU

Card dropped there by Tourist Information in Request for Information re District.

It is a long way from Alberta to Honolulu, but advertising literature from the Central Alberta development league has gone that far aimed at secured results, nevertheless. This morning Secretary Foster received in the city of Montreal, from an enquiry card that had been distributed by the officers of the Central Alberta development league, from a man residing in Honolulu. He wanted information regarding the Edmonton area for the purpose of purchasing or homesteading.

It is difficult to say how the card reached Honolulu, but the fact that it was carried there by a tourist who picked it up at some of our agencies in the States or the Old country. The commissioning feature of these enquiry cards is that people will carry them long distances.

FAMINE IN PHILIPPINES

Manila, Sept. 21.—Danger of famine in the Philippines on account of the failure of the rice crops has become so threatening that Governor General Forbes today decided to order purchases by the government of a shipment of cereals in Bangkok. The cargo will be carried to the people at cost.

DEFENSE OF SOUTH AFRICA

(Western Associated Press) London, Sept. 21.—Lord Methuen will remain as commander-in-chief of South Africa until the Union Government has definitely accepted some scheme of defense. It is reported that a plan for a small regular strike force and a territorial army from the population will be installed in February.

Cathedral Hall, Norwood Boulevard, at 8 o'clock p. m.

Monday, Sept. 25
Kerla's Hall, Kinitino Ave., at 8 o'clock p. m.

G. S. ARMSTRONG,
Mayor.

WORKMEN INJURED APPEAL FOR DAMAGES

Appeal Cases Are Now Being Argued Before the Supreme Court En Banc.

Two important appeals against decisions of Mr. Justice Stuart, in actions brought against employers of labor for compensation under the common law are being heard by their lordships of the full court this week.

The first is the appeal of Peter Smith, a workman who lost the use of his right eye as the outcome of an accident at the mill of John Walters Ltd., in July of last year, against his lordships' decision dismissing an action for damages totalling in the neighborhood of \$4,000.

Smith was engaged in the operation of a saw lathe in Walters' mill when a piece of wood, flying from the rapidly revolving saw blades, struck him in the left eye, which pierced and destroyed.

The workman had intended to take action under the compensation law, but owing to certain legal delays, the period of six months, within which proceedings must be instituted under the Alberta law, had been allowed to elapse before the action was entered. Mr. Justice Stuart, for the plaintiff, stated in the course of the hearing that it had been his intention to take action under the compensation law, but that the matter had been allowed to stand too long.

The plaintiff contended that the saw was to the knowledge of the defendant in a dangerous condition and improperly protected at the time of the accident. He claimed the sum of \$25,000 for medical attendance, hospital fees at the rate of \$5.25 per week, with \$2,000 general damages. The defense averred that their workman was not acting under orders when the accident occurred, and that it was not due to their fault or carelessness.

He claimed that the workman had been subjected to only ordinary care and that there was contributory negligence.

In dismissing the action Mr. Justice Stuart declared the point was whether the defendant was guilty of negligence in omitting to give a guard for the lathe saw. He held that the concern did provide reasonably safe protection for workmen.

In the case of Edwirth Bailey and the Glover Bar Coal Co., the circumstances are in many respects similar. Bailey was at work on a trestle in the company's mines at day of 1910, when an accident occurred whereby he sustained fractures of both legs, and severe bruises to the face and body. He claimed \$2,750 hospital fees, \$2,000 for the loss of time occasioned by the accident, and \$2,000 general damages. Mr. Justice Stuart held that the cause of the accident was conjectured that the plaintiff had not proven negligence on the part of the company, and dismissed the case.

In this case also it was originally intended to be under action under the common law, but the action was not entered until after the expiration of six months.

Gormack & Mackie are appearing for the appellant and Robertson, Dickson & McMahon for the respondents.

COMMISSIONERS TAKE UP ROUTINE BUSINESS

The frequent disorganization of the telephone service was the subject of a communication to the city commissioners this morning. H. J. Smith, of 1340 Jasper avenue, complained that in spite of repeated visits from the departmental experts, the telephone installed at the Jasper avenue store was in a perpetual state of disrepair. The phone was broken down for a short time, but became useless again after a short period.

Superintendent Griffith will be asked to report on the matter.

A letter received from Gorman Clancy and Grady in regard to their account of \$3,001.50 for the "100 Ac. Cord," "centralized pump." The contract price of that pump was \$2,875, but owing to the fact that the order was hurriedly filed, to supply the city's urgent need, some clerical error in the specifications were necessitated to avoid delay.

Boston would not consent to pay this extra amount. Clancy and Grady suggested that the city get good value for the extra sum, and ask that the account be paid. The matter was referred to the waterworks superintendent.

FISHERIES BOARD TO COMPEL ITS WORK

(Continued from page one)

In order that the Indians may secure credit for their water hunting expeditions they have to catch them at a time when the weather is warm enough for them to be in the sun. They can not carry fresh fish with them on their hunting trips because they would be too heavy. Neither can they fish through the ice for the reason that during the winter months they are away on their hunting grounds, and aside from this in many cases they are not allowed to go out at all, having been used to doing all their fishing in the summer.

The commissioners have yet to visit the La Bata and Lesser Slave Lake and they will visit Edmonton Saturday on another morning trip to these bodies of water. They will not go to Great Slave Lake because it has been some years before the construction of railways in the far north will permit of the lake being used for commercial purposes. The same applies to Lake Athabasca and other large lakes in the far north.

N. Humphreys of the Vancouver firm of Hunt, Hays and Turner, who has spent some time in the Peace river country with a land survey party, returned to Edmonton early this week and left yesterday for the coast.

Peter McLaughlin, former superintendent of the government fish hatchery, who is now engaged in a large contract for farming and stock raising, left this morning on a brief visit.

BARGAINS

A Full Flood of Money Savers

519 Namayo Telephone 5060

For Friday and Saturday

When we say Bargains it is genuine, seasonable merchandise from all parts of the store.

Prices Below The Zero Mark
